

## How to Scan Passports with a Mobile ID Scanner - IDVisor Smart

Below is a link to a video demonstration of how to use your IDVisor Smart ID Scanner to scan barcodes on driver's licenses and MRZs on Passports.

<https://www.youtube.com/watch?v=G8kAlwYGzMk>

You can test your scanner on sample barcodes and MRZ included in this document. Depending on your computer screen, it may be helpful to print out this document as it may be hard to get a readable scan from your monitor due to glare.

## Barcodes:

## Passports:

To scan a passport, follow the example demonstration below:
